Representation Description :

I just want to lodge my protest against this application to build a commercial property or ANY property on this site or near it. This is a noted archeological site mentioned by my grand father E.B. VELLA in the famous book 'Lis-Storja ta' Mosta'.

Grognet himself also highlights the area!! Since when are you allowing such sensitive sites to be destroyed for even more cement and concrete. This is our heritage, our island and it is our right to protect what is left, at all costs.

Has money blinded everyone to what is right and wrong? I am openly and publicly protesting against this application and future applications for this area of Mosta. Isn't it enough that you have allowed the destruction of the rest of our island and around Mosta? Enough is enough!
